Connor Sport Court International

2012 Battle on the Midway - Connor QuickLock portable system converts the deck of the USS Midway into a world-class, high performance basketball court on Veterans Day 11/11/12. Syracuse University overcame swirling winds and glaring sun to hold off San Diego State, 62-49, in the Battle on the Midway. The game was televised nationally by FOX Sports Net from San Diego.

Top 10 Reasons to Buy

1. World's Largest Court Builder

Connor Sport Court International is the World's Largest Court Builder. Our qualified court builders and distributors have completed over 100,000 projects, on all seven continents and in more than 100 countries, installing everything from hardwood basketball courts to indoor tracks, from gymnasium floors to outdoor suspended athletic surfaces, from tennis courts to lights and most accessories in between. For over 100 years, Connor Sport Court has been creating better and safer places to compete.

2. Safest Courts in the World

Independent testing has proven that Connor Sports Court International makes and delivers The Safest Courts in the World. Whether it is the most DIN-certified subfloors or the built-in Lateral Forgiveness or the best-in-class shock absorbing characteristics, the engineers at Connor Sport Court have tested and retested to provide the safest playing surfaces you can buy.

3. Used by the Best

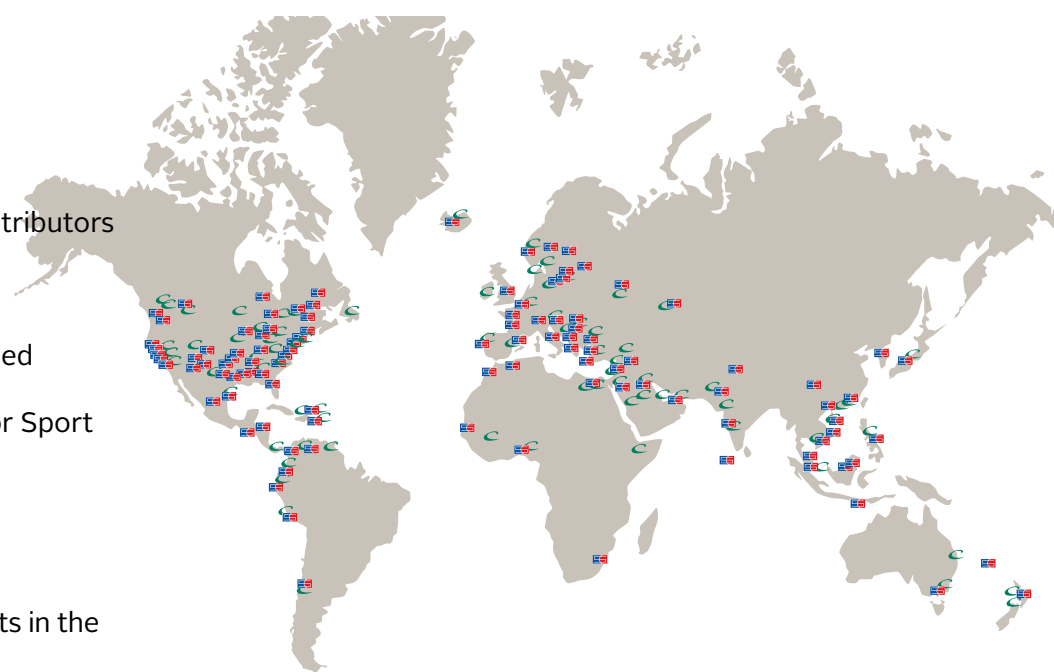

Our products are used at the highest levels of competition by the NBA, NCAA, USA Volleyball, Olympic National Team, the Youth Olympic Games, The United States Tennis Association and others.

4. Manufacturing Excellence

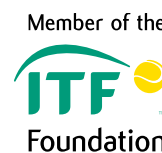

Connor Sport Court is the only ISO-9001 and ISO-14001 certified flooring manufacturer in North America that is independently audited and verified every year. Since 2009 Connor Sport Court has been certified as a ZeroWaste Manufacturer by independent environmental consultants.

5. Made In The USA

Connor Sport Court International proudly manufactures its signature products in the USA. Production plants and offices are located in Chicago, IL, Amasa, MI and in Salt Lake City, UT, which also houses the company's corporate headquarters.

Connor Sport Court's dealers and distributors are located around the world.

6. Turnkey Installations

Connor Sport Court International can build a new gymnasium, upgrade a basketball court, resurface a tennis court, add court accessories and even build a new sports complex. Firm fixed pricing is available around the world through our GSA Schedule.

7. Installed Locally, Supported Globally

Our trained network of local court builders are stationed locally to support any product warranty needs or installation issues. Connor Sport Court International has built its industry-leading reputation by standing behind our products, our quality and our service.

8. In-house Engineering and Testing

Connor Sport Court International maintains a full staff of qualified engineers, who continually test and improve our processes and our products. We test and prove each product that we offer, and rely on independent laboratories to confirm our results.

9. Low Maintenance and Lifecycle Costs

Sport Court's suspended athletic surfaces provide years of safe and durable support for competitive play and include the best warranty in the industry. Simple cleaning techniques keep the surfaces at their top performance indoors and out.

10. Industry-Leading Experience

The Connor brand has been producing superior quality hardwood for 140 years while Sport Court has been providing athletic flooring solutions for almost 40 years. Our years of experience and superior product knowledge provides our customers confidence in purchasing the Safest Courts in The World from the World's Largest Court Builder.

PortaFloor®

PORTAFLOOR®

PortaFloor is the world's best temporary flooring system. From camps, machine shops, hospitals, dining halls and maintenance facilities to instant airports, PortaFloor provides the rapid installation and superior load capacity for all deployments. The engineered modular and rollable sections are designed for expeditionary and portable installations. The reusable sections lock together quickly and securely and are light and lean so they can be disassembled and rapidly redeployed. PortaFloor Flooring Systems are 100% recyclable and are designed to support today's zero footprint and green initiatives.

- **Manufactured since 1996**
- **Recyclable and recycled materials**
- **Leader in "Rollable" and deployable temporary flooring systems**

- **Memorable Installations:**

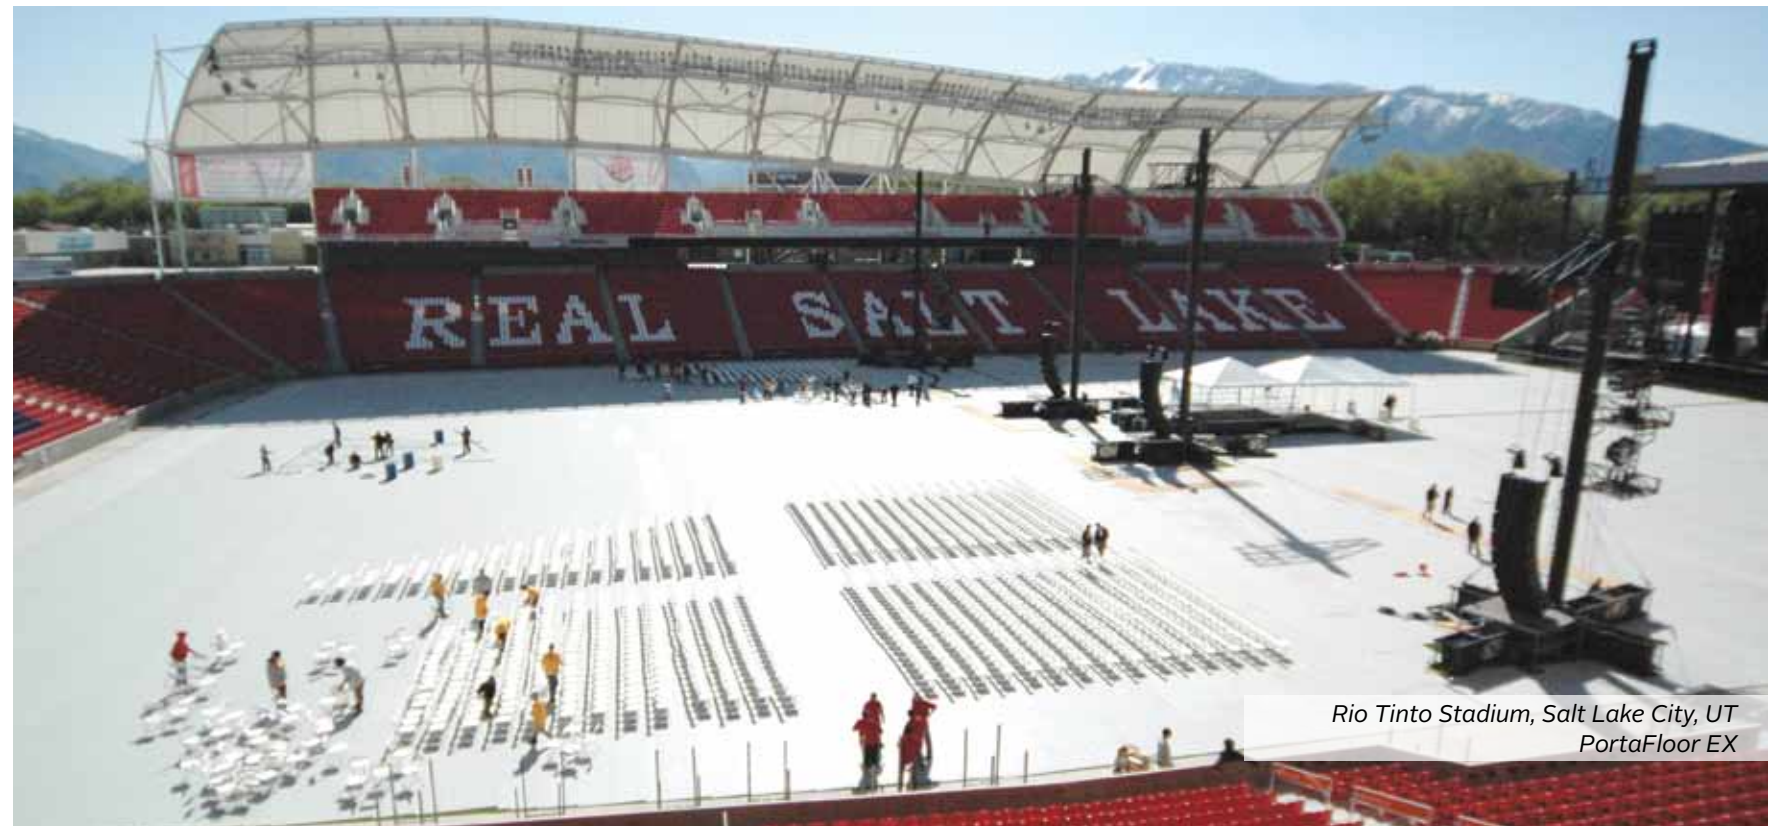

- Olympic Games in Atlanta, Salt Lake City & Beijing
- Air Force portable structures around the world
- Athletic courts sub base

Wood Systems

Connor Sports is the market leader in wood sports flooring systems. Connor has built maple hardwood courts for over half of NBA teams and hundreds of colleges and universities, with products for every level of competition — from park and recreation centers to high schools to the top college basketball programs in the country. In fact, Connor is proud to be the exclusive supplier of the championship floors for both the Men's and Women's NCAA Final Four.

All Connor floors are made in our ISO-certified plant and are DIN and STEM tested. Connor is a charter member of the Maple Flooring Manufacturer's Association (MFMA) and the first member of that group to be certified by the Rainforest Alliance.

Portable Wood Systems

Connor Sports is proud to be the official court surface of the NCAA Men's and Women's Final Four and the NCAA Men's and Women's Regional Tournament. In fact, every game in the Men's tournament will be played on a Connor QuickLock Portable Court.

The QuickLock Portable System is engineered to deliver a portable court that plays and feels like a permanent playing surface. It is manufactured with facilities in mind, whether you do frequent disassemblies to host numerous events or leave the court down for the season.

Some of our installations include:

*University of Oregon • Golden State Warriors •
Philadelphia 76ers • Idaho State University •
Connecticut Sun*

2007 Final Four San Antonio Texas
QuickLock portable court

Synthetic Systems

Connor Sports Surface Solutions focuses on building relationships and providing outstanding solutions for athletic surface requirements. Our objective is to deliver quality sports surfacing that meets the needs of both the facility and the athletes that play on our floors. Whether you need activity flooring for a multi-purpose center, durable mats for a weight room, or a new running track, we've got you covered.

Outdoor Courts

Sport Court's outdoor suspended sports surfaces are perfect for almost any sport imaginable. Resurface cracked tennis courts, or convert them to multi-sport athletic complexes with space to play basketball, futsal, volleyball and any other activity you desire. Our outdoor suspended surface installations can transform a parking lot or rooftop into a high-performance arena. Sport Court can also upgrade and resurface outdoor courts with acrylic, cushioned acrylic, or a free floating acrylic overlay that provides unequalled shock absorption.

Gymnasium Floors & Accessories

When it comes to safety and performance, there is no substitute for what we've learned working with the world's leading sports organizations. Over the past two decades, Sport Court has been the approved surface for a variety of high-level competitions including: USA Volleyball® National Team events, the NCAA® Volleyball Championships, US Soccer Foundation®, USTA®, and professional basketball leagues around the world. We have taken our experience in these world-class events and relationships, and translated it into the best performing, most economical gym flooring and accessories available today.
