PELICAN BIOPHARMA™ CASES

REPLACING THE WEAKEST LINK IN COLDCHAIN LOGISTICS.

Shipping expensive pharmaceutical products using inferior containers doesn't pencil out. Factor in all the risks- damage in transit, spoilage from logistical delays, G-shock to the contents- and it's clear that cardboard doesn't cut it.

Introducing the Pelican BioPharma™ case, the most secure, re-usable and temperature safe solution in the industry, manufactured and tested to exceed industry standards in temperature-safe storage and transport.

Available in three sizes, the strong HPX™ resin exterior is engineered to endure rigorous conditions and repeated impact while in transit. It is also light in weight which offsets shipping costs. Easy to open Press N Pull latches keep the lid tight and secure. And to deter theft, padlock hasps are molded in to keep contents safe. Model BP2620 and BP3075 include telescoping handles and inline wheels for ease of transport. Stainless steel hardware is used for strength and durability.

From the easily cleaned interior surface to the intuitive mistake proof thermal components Pelican BioPharma cases remain rugged and are designed for easy use and re-use.

DAY 1
SHIPMENT READY

DAY 2
STEADY AT 5C

DAY 3
IN TRANSIT

DAY 4

DAY 5
SHIPMENT ARRIVES READY FOR USE

THERMAL PROTECTOR CASES BUILT TO WITHSTAND THE OPEN ROAD

REUSABLE:

Pelican BioPharma cases are the most durable and protective cases available and are designed to withstand the extremes of the shipping environment and continue to perform over multiple trips.

TEMPERATURE SAFE

Pelican BioPharma cases control temperatures longer than other leading industry shipping solutions when subjected to severe thermal test profiles.

TIME SENSITIVE

Specially engineered thermal design exceeds typical performance standards and has shown performance between 2°C to 8°C for more than 120 hours and in some cases up to 168-hours.

Specially engineered thermal design exceeds typical performance standards and has shown performance between 2°C to 8°C for more than 120 hours and in some cases up to 168-hours. In addition to the superior product design, Pelican is introducing ways to make re-usability of our cases work for you.

Pelican is a Worldwide company that can offer services around

Our Cases are inspected and tested to ensure optimal performance in the field.

the globe to help with return logistics and maintenance of your case. Through this capability we offer multiple ways to use our solutions, including long term leasing, short term rentals, and other purchase options.

About Pelican: Pelican is the trusted brand in

rugged, high-performance reusable protective cases for highly demanding industries including the military and industrial/chemical market. Our products are tested to withstand multiple drops and hazardous conditions, they have been deployed in real world situations from Arctic research facilities to military field hospitals in the arid Sahara.
